How to apply your sticker

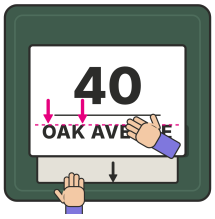

1 **Clean and dry the bin.** Wash with soapy water and dry it fully. Best above about 10°C.

2 **Peel the narrow strip.** Bend the sticker at the back cut and peel off the strip marked “PEEL THIS FIRST”.

3 **Line it up and stick the top edge.** Press the exposed strip onto the bin.

4 **Peel and smooth down.** Pull the rest of the backing away slowly, smoothing from the stuck edge downwards as you go.

5 **Press the edges.** Press firmly along all edges and corners.

6 **Wait 3 days before washing.** No washing or scrubbing for 3 days. Ordinary rain is fine.
